

SERVICE PROCEDURES

SERVICE TYPE: **California Termite Inspection**

Client needs a California Pest Inspection Report.

SCHEDULING PROCEDURES:

- Contact NVMS immediately if you cannot complete and report this order by the due date.
- Be sure to print, read, and follow all Order Instructions to ensure that the request and expectations are understood.

REPORTING PROCEDURES:

- Inspection must be performed by a qualified, and currently licensed, Structural Pest Control Field Representative, Operator or Applicator. Individual must work on behalf of a properly registered pest control company in the state of California.
- Please perform an inspection that is compliant with the California Structural Pest Control requirements, and can be used for transfer of title on a property.
- Completed (and PDF'ed) report and photos should be uploaded directly to the order on the NVMS website. If the report and photos cannot be uploaded directly, you can email them to your NVMS Regional Support team at vmteam-south@nvms.com
- Once the report and photos are complete, follow the steps to properly submit for QA Review.
- **DO NOT ISSUE COPIES OF THE INSPECTION REPORT TO ANYONE OTHER THAN NVMS**
- Invoice should be submitted as a separate document to your NVMS Regional Support Team.

NOTE: Any specific instructions typed on the order take precedence over these standard Service Procedures.
